THE BOUNDLESS SELF-CONFESSION

Essays from *The Aletheon*

The Ineffable has Happened. The deepest longings of the human heart are answered and vindicated. The Ruchira Avatar, Adi Da Samraj, is that Breakthrough Presence, Reality Itself Shining into the "cave" - as He once said, "like Sunlight in the morning". And this book

is His Supreme Statement that "morning" has come. *The Boundless Self-Confession*, written only a few months before He passed from the body (in November 2008), brings to culmination a lifetime of Revelation writings by the Ruchira Avatar about the eternal meaning and purpose of His Appearance, revealing profundities that are ultimately unfathomable. But the heart knows. The heart, as His Divine Presence says, "is where everyone comes to Me".

- from the Introduction by Carolyn Lee

Now, and forever hereafter, only the culture of the devotional recognition of Me pertains.

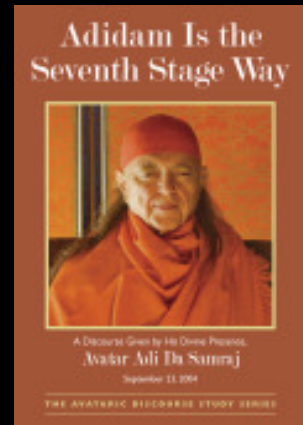

Now, and forever hereafter, the provision for Me must be liberal, full, overwhelming - thousands of infinite times greater than sufficient, altogether and Absolute.

- from the Boundless Self-Confession

The Avataric Discourse
Study Series (DVD)

Avatar Adi Da's remarkable Discourse of September 23, 2004, in which He describes, in technical detail, the distinctive qualities of His Reality-Revelation in the context of the Great Tradition.

As you watch this extraordinary footage, you will be in awe, once again, of the unspeakable Gift of Bhagavan Adi Da's human Form, and of His Work to Describe His seventh stage Way in perfect detail for the sake of all beings.
